

Item	Detailed Pictures of Top CNC	Pictures of Other Competitors	Advantages
1-The Working Table			<p>Our working table is made of casted aluminium working table, thickness 42.5 mm and other factories is only 3-4 mm thick.</p>
2- The Linear Guide Rails And Racks			<p>The Hiwin Linear Guide Rails And Racks, working accuracy much better and more reliable than the domestic brands.</p>
3- The Electrical Parts			<p>Our main electrical Parts are Germany Igus Brand While others mostly use Chinese brands.</p>
4-The Cables			<p>We all use genuine germany Igus cables and others we use the domestic brand cables.</p>

<p>5-The Servo Motors and Drivers</p>			<p>Top CNC only use Taiwan and Japan servo motors and drivers while others are mainly using Chinese Brands.</p>
<p>6-The Control Box</p>			<p>The Top CNC Elegant New design Control Box For Free</p>
<p>7- The Punching Device</p>			<p>For the other optional parts, we all use strong and leading brand ones, and never use the low quality ones</p>
<p>8-The Working Accuracy</p>			<p>We have better leveling system and better working accuracies due to the expert assembling team.</p>
<p>9- The Machine Body Structure</p>			<p>Top CNC 2516 Size machine is around 1100 KGS, while other factory's machines mostly only 700-800 KGS weight.</p>
